NEXORA
CORPORATE SOLUTIONS

RESOURCE. RESPONSIBILITY.
REAL BUSINESS VALUE.

TURN WASTE INTO BUSINESS VALUE.

Integrated E-Waste, Hazardous Waste, General Waste & Industrial Scraps Solutions

Smarter handling. Better recovery. Stronger compliance.

E-WASTE

Boards, devices & components.

Collection, traceability and recovery support.

HAZARDOUS

Batteries, chemicals, lamps & dross.

Safe handling through authorised channels.

GENERAL

Paper, carton, metals and plastics.

Segregation, scrap movement and value recovery.

COMPLIANCE

Documentation, manifests and partner coordination.

Smoother records, audits and closures.

ONE PARTNER. EVERY WASTE CHALLENGE.

Nexora is a practical waste-management solution partner for manufacturers.
We help you handle every type of waste more easily and systematically - from internal handling procedures and stream identification to segregation, collection coordination, recycler/disposal channel coordination, compliance documentation, and traceability support.
We support the full workflow, end to end, not just introductions between manufacturers and recyclers.

THE NEXORA ADVANTAGE

01

WASTE MAPPING

Identify waste streams, volumes and handling needs across operations.

02

SEGREGATION & COLLECTION

Establish segregation procedures, plan pickups and control waste movement efficiently.

03

RECYCLING / DISPOSAL

Coordinate with authorised partners for e-waste, hazardous waste and general waste.

04

COMPLIANCE & RECORDS

Provide documentation, manifests, traceability records and closure support.

FROM PROCEDURE TO DISPOSAL. NEXORA SUPPORTS THE FULL WASTE WORKFLOW.

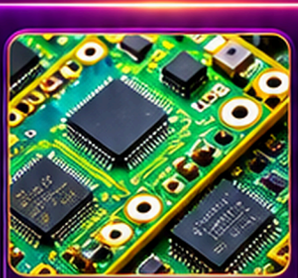

NEXORA
CORPORATE SOLUTIONS

RESOURCE. RESPONSIBILITY.
REAL BUSINESS VALUE.

EVERY WASTE STREAM. CLEARLY MANAGED.

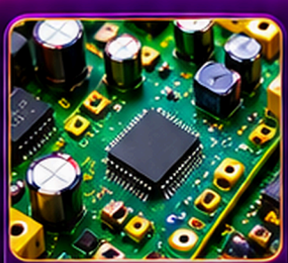

Clear categories. Clearer action. Better recovery decisions.

01 E-WASTE

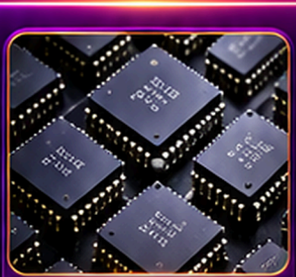

PCB / MOTHERBOARDS

Waste generated from boards used across aerospace, defence, medical equipment, telecommunication, and

PCBA ASSEMBLIES

Populated boards, control boards and EMS assemblies.

ICs & COMPONENTS

Chips, sensors, connectors, relays and electronic parts.

END-OF-LIFE DEVICES

Mobiles, laptops, servers, routers, TVs and instruments.

02 HAZARDOUS WASTE

LEAD / LEAD-FREE DROSS

Solder-process residues.

USED CHEMICALS

Solvents, flux, process liquids and cleaners.

USED BATTERIES

Li-ion, NiMH, UPS and backup cells.

USED LIGHTS

CFLs, tubes, LEDs and lighting waste.

03 GENERAL WASTE

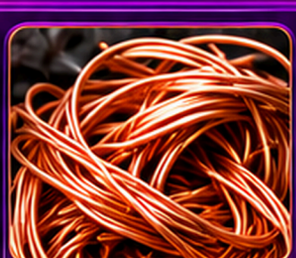

PAPER & CARTON

Paper, cartons and packaging.

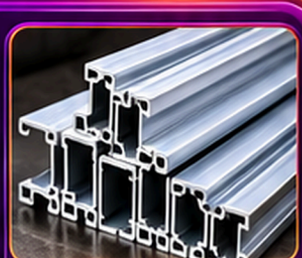

IRON & STEEL SCRAP

Frames, racks, fabrication scrap and sheet offcuts.

COPPER SCRAP

Cables, winding wire, busbars and copper offcuts.

ALUMINIUM SCRAP

Profiles, heat sinks, sheets and extrusion scrap.

Correct segregation and authorised handling depend on the waste stream and applicable rules.

LET'S CREATE A CIRCULAR BUSINESS ADVANTAGE.

SMARTER WASTE DECISIONS. STRONGER CORPORATE CONNECTIONS.

PARTNER WITH NEXORA

ONE CONVERSATION. A BETTER WASTE STRATEGY.
